Recombinant Human Progranulin/PGRN/GRN Protein

Catalog No.: RP00187

Sequence Information

Species	Gene ID
Human	2896
Swiss Prot	**Tags**
P28799	C-His

Synonyms
CLN11, GEP, GP88, PCDGF, PEPI, PGRN,GRN, CLN11, granulins,GEP, GP88,PCDGF,PEPI,PGRN,granulins

Product Information

Source	Purification
HEK293 cells	≥ 90 % as determined by SDS-PAGE.
Calculated MW	**Observed MW**
62.63 kDa	90-95 kDa

Endotoxin
< 0.1 EU/μg of the protein by LAL method.

Formulation
Lyophilized from a 0.22 μm filtered solution of PBS, pH 7.4.Contact us for customized product form or formulation.

Reconstitution
Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stablizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

Background

Granulins are a family of secreted, glycosylated peptides that are cleaved from a single precursor protein with 7.5 repeats of a highly conserved 12-cysteine granulin/epithelin motif. The 88 kDa precursor protein, progranulin, is also called proepithelin and PC cell-derived growth factor. Cleavage of the signal peptide produces mature granulin which can be further cleaved into a variety of active, 6 kDa peptides. These smaller cleavage products are named granulin A, granulin B, granulin C, etc. Epithelins 1 and 2 are synonymous with granulins A and B, respectively. Both the peptides and intact granulin protein regulate cell growth. However, different members of the granulin protein family may act as inhibitors, stimulators, or have dual actions on cell growth. Granulin family members are important in normal development, wound healing, and tumorigenesis.

Basic Information

Description
Recombinant Human Progranulin/PGRN/GRN Protein is produced by HEK293 expression system. The target protein is expressed with sequence (Thr18-Leu593) of human Granulin/GRN/Progranulin (Accession #NP_002078.1) fused with a 6×His tag at the C-terminus.

Activity

Shipping
Lyophilized proteins are shipped at ambient temperature.
Liquid proteins are shipped at frozen temperature with dry ice.
Upon receipt, store it immediately at the temperature recommended below.

Storage
Store at -20℃

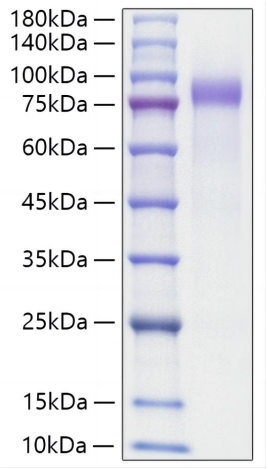

Operational Notes
For your safety and health, please wear a lab coat and disposable gloves for handling.

Validation Data

Recombinant Human Progranulin/PGRN/GRN Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.
